OUR COMMITMENT

When it comes to specifying plumbing fixtures and fittings to meet the requirements of healthcare facilities, American Standard is your complete solution provider. From infection control and clinic service sinks to patient room fixtures and commercial touch-free flush valves, American Standard products balance the need, style and function of every healthcare application.

Key Benefits:

Exclusive EverClean® antimicrobial technology which inhibits the growth of stain and odor causing bacteria, mold and mildew on the surface.

American Standard's patented Selectronic proximity faucets feature state-of-the-art designs that combine water- and energy-saving technology with attractive styling.

Our commercial products leverage the latest innovations delivering the broadest selection of LEED, EPA WaterSense® and ADA compliant products.

We also feature an anti-scald feature on faucets for patient safety.

*This product will not eliminate the risk of infection, but provides a hygienic environment by reducing splashing through its unique design.
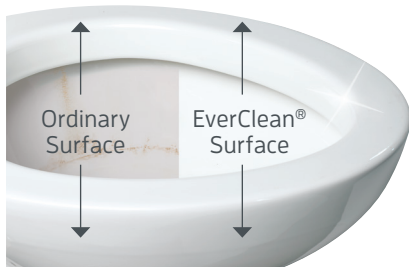

Exclusive Technologies

EverClean®

Inhibits the growth of stain and odor causing bacteria, mold and mildew on the surface

Permanent surface is more than 2.5 times smoother than ordinary chinaware

Ordinary Surface | EverClean® Surface

Selectronic® Proximity Faucets

Programmable, multi-function sensor is used in all Selectronic® faucets, urinals and flush valves

Hygienic, touch-free operation eliminates contact with faucet handles

Auto Purge feature turns faucet on periodically to purge stagnant water

VorMax® Features and Benefits:

CleanCurve® Rim Design

Unique rim design eliminates hidden, hard to reach surfaces where dirt and build-up hide.

CLEANCURVE RIM | CONVENTIONAL RIM

VorMax Flushing Action

Delivers a powerful jet of water that completely scrubs the bowl clean from top to bottom, eliminating everything in its path. **Tested and proven, cleans over 2X Better.***
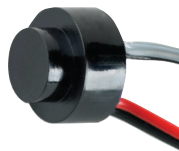

Obtains Best 1,000 g MaP score at both 1.0 and 1.28 gpf

MaP PREMIUM — When used with 1.0 gpf tanks

VorMax UHET
238AA.114

SmarTherm® Safety Shut-Off*

Automatically protects user from scalding. ASSE 1070 certified. Eliminates the need for a separate thermostatic mixing valve

American Standard offers a complete portfolio of products with beautiful style and design to meet all of your healthcare needs.
